## 1.2.2 STUDENT SOCIAL-EMOTIONAL WELL BEING

SCHOOL-COMMUNITY COLLABORATION

- How can we work together--in person and in social media, in and beyond school--to ensure that our young people grow, not just in intellect, but in character, social and emotional dimensions, in order to be contributors to respect, tolerance, kindness, wellness, and service?

- How will our young people show us their progress and help us recognize their needs?
- How does/will your group answer/address this question? How do we work together?
- We came together because we have shared concerns. How does the wider community come to learn that we, organizations who care for the community's children outside the home, are focusing on this issue?
