

## Hot weather Protocol

The Chappaqua Central School District has spaces within its school buildings that are air conditioned. On extremely hot days, the school(s) will rotate students into cooler spaces and/or reduce time outside to give students relief from the heat.

This rotation will be activated by the building principal (or designee) under either of these conditions:

- 95° F Heat Index - Outside ([Guidelines per NYS Public HS Athletic Association](#))
- 85° F Classroom Temperature (All spaces will have a digital thermometer.)

### Procedure for Hot Weather Protocol

## Cooling Locations at Greeley

Building / Room Identification	Occupancy
<b>A Building</b>	
Fitness Center	2 Classes
<b>B Building</b>	
Auditorium	500
Performing Arts Room	1 Class
Band Room	1 Class
<b>C Building</b>
