Difficulties encountered in performing the audit	We encountered no significant difficulties in dealing with management relating to the performance of our audit.

Disagreements with management	For purposes of this communication, a disagreement with management is a matter, whether or not resolved to our satisfaction, concerning financial accounting, reporting, or auditing, which could be significant to the financial statements or the auditors' report. No such disagreements arose during the course of the audit.
Management representations	We have requested certain representations from management that are included in the management representation letter (see Appendix 2).
Management's consultations with other accountants	In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no such consultations with other accountants.
Auditor independence	We affirm that PKF O'Connor Davies, LLP is independent with respect to the Entity in accordance with relevant professional standards.
Significant issues discussed with management prior to retention	We generally discuss with management a variety of matters, including the application of accounting principles and auditing standards, business conditions affecting the Entity and business plans and strategies that may affect the risks of material misstatement. None of the matters discussed and our responses thereto were a condition to our retention as auditors.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Chappaqua Central School District, New York (the "Entity") internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control. Accordingly, we express no such opinion.

Professional standards require that we communicate to you, in writing, all significant deficiencies and/or material weaknesses in internal control that we identify in performing our audit. For this purpose, deficiencies in internal control are categorized as follows:

- A **deficiency in internal control** exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis.
- A **material weakness** is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.
- A **significant deficiency** is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses and, therefore, there can be no assurance that all such deficiencies have been identified.

We did not identify any deficiencies in internal control that we consider to be material weaknesses, as defined above.

However, we share for your consideration on the following pages other observations about the internal control and operations.

This communication is intended solely for the information and use of management and others charged with governance and is not intended to be and should not be used by anyone other than these specified parties. We will be pleased to discuss these communications and comments in further detail at your convenience, or to assist you in implementing the recommendations.

On the Horizon

GASB Statement No. 84 – *Fiduciary Activities*

In January 2017, GASB issued Statement No. 84 “*Fiduciary Activities*”. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. Previously issued guidance lacked the necessary clarity to determine when a government had fiduciary responsibility for a certain activity. This lack of clarity has resulted in a divergence in practice among financial statement preparers and auditors.

GASB Statement No. 84 establishes criteria for identifying fiduciary activities. The focus of the criteria is on (a) whether a government *controls* the assets of the fiduciary activity and (b) the *beneficiaries* with whom a fiduciary relationship exists. A government is considered in control of the assets if the government holds the assets or has the ability to direct the use of the assets in a manner that provides benefits to the specified or intended recipients. The assets also cannot be derived from the government’s own source revenues (or from government-mandated or voluntary non-exchange transactions) and must also have one or more of the following characteristics related to whom the assets will benefit:

- 1) Be administered through a trust
- 2) The government itself is not the beneficiary
- 3) Dedicated to providing benefits in accordance with the benefit terms
- 4) Legally protected from the government’s creditors for the benefit of individuals and the government has no administrative or direct financial involvement with the asset
- 5) For the benefit of individuals and government has no administrative or direct financial involvement with the assets

An activity meeting the above criteria should be reported in the basic financial statements in one of the following four fiduciary funds, as applicable:

- 1) Pension (and other employee benefit) trust funds
- 2) Investment trust funds
- 3) Private-purpose trust funds
- 4) Custodial funds

Custodial funds should report fiduciary activities that are not reported in one of the first three fiduciary funds noted above. The use of **Agency funds has been eliminated with this Statement and replaced with custodial funds.**

Governments with activities meeting the above criteria will present a Statement of Fiduciary Net Position (i.e., assets, deferred outflows of resources, liabilities, deferred inflows of resources and fiduciary net position) and a Statement of Changes in Fiduciary Net Position (i.e., additions and deductions) for each fiduciary fund type. Previous guidance for agency funds only required the presentation of assets and liabilities, whereas the custodial funds require the same elements as the other fiduciary funds, including net position.

The provisions of this Statement are effective for fiscal years beginning after December 15, 2018 (i.e., the School District’s financial statements for the year ended December 31, 2019) with earlier application encouraged.

GASB Statement No. 87 – Leases

Potentially pervasive changes are coming to lease accounting. Under the provisions of GASB Statement No. 87, nearly every lease will be considered a capital lease. While local governments and school districts would most likely be lessees in these kinds of transactions, some might also be involved in transactions where they are the lessor of these assets.

Under this standard, lessees will now be required to recognize in their entity-wide Statement of Net Position a lease liability and an intangible right-to-use lease asset when the lease begins. The intangible asset will be similar to other capital assets by requiring amortization over the life of the lease term, similar to depreciation of tangible capital assets. Also similar to other capital assets, leases will need to be assessed for impairment.

Lessors will do the opposite. Lessors will recognize a lease receivable and a deferred inflow of resources at the start of a lease. The receivable will be reduced and revenue recognized as lease payments are received each year. The lessor will continue to report the capital asset on its own Statement of Net Position.

Governments should review this standard early to anticipate what changes might need to be made to policies, accounting procedures, laws and regulations. The provisions of this Statement are **effective for fiscal years beginning after December 15, 2019 (i.e., the School District's financial statements for the year ended December 31, 2020) with earlier application encouraged.**

Changes to Government Auditing Standards

The U.S. Government Accountability Office, in July 2018, issued its 2018 revision to Government Auditing Standards (i.e. "Yellow Book"). These changes will be the first changes since 2011 and are designed to ensure the standards continue to meet the needs of the federal, state and local government communities and the public these bodies serve. The following significant new audit requirement was added to the 2018 revision:

As part of an audit under Government Auditing Standards, if auditors become aware of waste or abuse that could be quantitatively or qualitatively material to the financial statements, auditors should perform additional audit procedures to ascertain the potential effect on the financial statements.

Included in the application guidance are these definitions:

Waste is the act of using or expending resources carelessly, extravagantly, or to no purpose. Waste involves the taxpayers not receiving reasonable value for money in connection with any government-funded activities because of an inappropriate act or omission by parties with control over or access to government resources. Importantly, waste can include activities that do not include abuse and does not necessarily involve a violation of law. Rather, waste relates primarily to mismanagement, inappropriate actions, and inadequate oversight.

Abuse is behavior that is deficient or improper when compared with behavior that a prudent person would consider reasonable and necessary business practice given the facts and circumstances, but excludes fraud and noncompliance with provisions of laws, regulations, contracts, and grant agreements. Abuse also includes misuse of authority or position for personal financial interests or those of an immediate or close family member or business associate. Because the determination of abuse is subjective, auditors are not required to perform procedures to detect abuse in financial audits. Auditors may discover that abuse is indicative of fraud or noncompliance with provisions of laws, regulations, contracts, and grant agreements.

The 2018 revision of Government Auditing Standards is effective for financial audits for periods ending on or after June 30, 2020. Early implementation is not permitted.

This representation letter is provided in connection with your audit of the financial statements of the Chappaqua Central School District, New York, which comprise the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information as of June 30, 2019, and the respective changes in financial position for the year then ended, and the related notes to the financial statements, for the purpose of expressing opinions as to whether the financial statements are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

This representation letter is also provided in connection with your audit of the financial statements of the Extraclassroom Activity Funds of the School District which comprise the statement of cash receipts, cash disbursements and cash balances as of June 30, 2019 and for the year then ended for the purpose of expressing an opinion as to whether the financial statements are presented fairly, in all material respects, in accordance with the basis of accounting prescribed by the New York State Department of Education.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement. An omission or misstatement that is monetarily small in amount could be considered material as a result of qualitative factors.
